ELECTRONIC AND DIGITAL SOLUTIONS

Established over 40 years ago, the company **ANE Industrial Supplies** has grown into one of the leaders in the mechanical and electronic prime mover and generation control industries in the sub-Saharan region.

We represent Woodward who is the leader in the manufacture and design of electro mechanical and electronic prime mover control systems for both marine and industrial applications.

In addition to offering a comprehensive range of electronic and digital based solutions and products, we also repair, install and commission products with our authorised specialists. Our solutions provide a wide range, from preventative product options to protection and controls systems, using acclaimed hardware and software solutions.

Our team of experienced and dedicated specialists offer the services of building panels, commissioning process controls and retrofitting old equipment with new electronic and digital solutions. We also offer data acquisition and telemetry providing critical information to interrogate when making decisions concerning key asset performance and management.

With a wealth of experience in their field, ANE Industrial Supplies works closely with customers to ensure that service delivery is provided in such a manner as to reduce downtime and maximise efficiency.
